

Week Report

Project	Real-Time Bridge Monitoring	Week	43
Name	Dzana Kujan	Date	28.10.2013

Achievements

- The first presentation 'Project Plan and Vision' has been held this week.
- Customers were met for the first time
- Work on the project plan document
- Requirements gathering started

Problems

The problems that we had this week were regarding requirements. They are still pretty unclear and the team still has some unanswered questions for the customer.

Plans for the next week

Plans for next week include the following:

- Finalize the Project Plan document
- Set up environment
- Meet with customers
- Work on requirements
