

1. Tasks done and problems on doing that
2. Supervisors Meeting Summary → read it before then we have to discuss :-)
3. Alpha prototype
4. Alpha prototype presentation
5. Some parameters: Marko and Lorenzo, please talk about this :-) we need something for the math engine :-)
6. Status Report presentation: who and what?
7. Web Graphs → great ;-)
8. quartz scheduler → I donno if Ghazal will do that, I have no replies to mails and skype messages → who will do that if she could not?
9. Single executable archive for linux and windows version with DB creation, Tomcat configuration, JRE and libraries inclusion
10. Test classes and tests
11. updating the documentation → use case diagrams, sequence diagrams, class diagrams, ... → who will do that?
12. Final documentation, user manual, installation manual → start to write → who will do that?
13. Next tasks
14. Quesiton ?? Suggestions?? proposals ?? :-)
