

Week Report

Project	Real-Time Bridge Monitoring	Week	45
Name	Andrea Bottoli	Date	07.10.2013

Achievements

- Draw Sequence Diagrams
- Choose technologies, interfaces and pattern (MVC)
- Status Report Slides
- Summarize the project to Ghazaleh
- Meeting with customers
- Meeting with supervisors
- Discussion on some suggestions from Swedish side on how to improve project management and on how to manage better the group and the tasks
- Tasks division and assignation

Problems

- Communication
- Some misunderstandings on the overall view of the project
- Last minute work
- Manage a new member
- Slightly behind the schedule
- Technical details not well explained by the customers

Plans for the next week

- **Setting up environment**
- **Start with implementation**
- **Assign new detailed tasks to each member**
- **Modify Design Document starting from group feedback**
- **Gather more requirements and details from the customers**
- **Meet customers to discuss about their requirements and to receive some explanation about their technical document**
