

Week Report

Project	Real-Time Bridge Monitoring	Week	46
Name	Andrea Bottoli	Date	17.11.2013

Achievements

- **Setted up (definitely?) the personal environment**
- **Updated tasks for each group member**
- **Meeting with the customer, gathering some requirements, validating previous requirements**
- **Updated issues and milestones on github**
- **Start developing the math engine**
- **Created a local DB for make some tests**

Problems

- **Create a high level structure for code and modules for the formulas (create macroblocks...still working on it)**
- **Problems in accessing on the remote VM to see the DB**

Plans for the next week	
<ul style="list-style-type: none"> • Continue the implementation of the math engine • Assign other tasks to each other to arrive asap at the alpha prototype • Meet customers to gather some other requirements and to report the status of the project • Meet supervisors to report the status of the project and to discuss some managing stuffs 	

Hours spent
