Comments / Experiences / Problems

- Encountered some problems in understanding the new requirements gathered from the Customer
- Encountered some problems in understanding the European Directive for the Constructions
- It's not very simple explain and understand the new requirements and the laws in EU for the constructions
- VM little slow when the parser works; it takes a long for parse the files in input
- The DB is very huge: at this moment, we have more than 11,000,000 tuples in Raw_Data table
