

Week Report

| | | | |
|----------------|------------------------------------|-------------|----------|
| Project | Real-time Bridge Monitoring | Week | 43 |
| Name | Marko Brčić | Date | 10/28/13 |

Achievements

- Started working on the requirements and plan of the project
- More or less we have clear vision about the project
- Virtual machine for testing is almost set

Problems

- Not perfectly clear requirements
- Familiarity of all the team members with the technologies used on the project

| Plans for the next week | |
|---|--|
| <ul style="list-style-type: none"> • Get better understanding of the requirements from the second meeting with the customer • Set up the development environment • Get example data and Matlab code from the customer • Polish VM | |
