

Distributed Software Development

The Development Group

Real-Time Bridge Monitoring Status Report

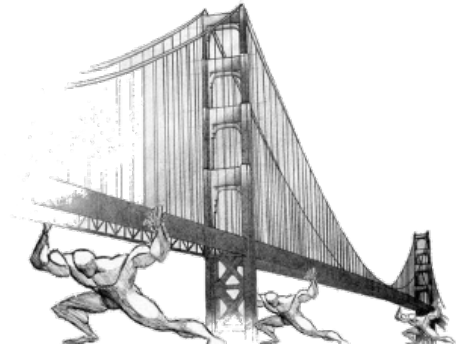

Overview

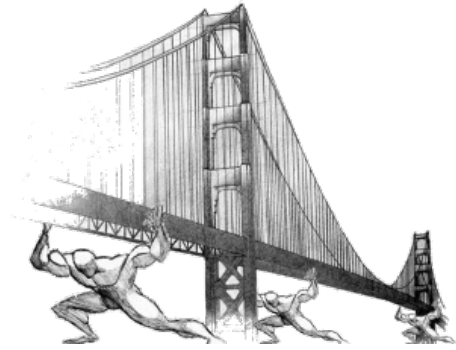

- Team Organization
 - The Development Group
 - Updated Roles
- Project Status
 - Actual Project Plan
 - Actual Architecture
 - Some API Diagrams
 - Some Sequence Diagrams

Overview

- Meetings
 - Group meetings
 - Customer meetings
 - Supervisor meeting
- The Repository

Team Organization

- The Development Group

Andrea Bottoli (PoliMi)

Lorenzo Pagliari (PoliMi)

Marko Brčić (FER)

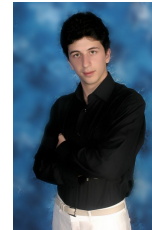

Ghazal Shojaee (PoliMi)

Dzana Kujan (MDH)

Jörn Tillmanns (MDH)

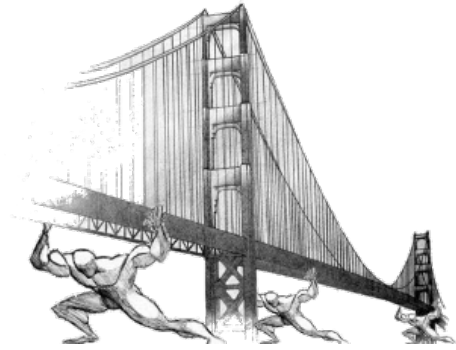

Miraldi Fifo (MDH)

Nikola Radisavljevic (MDH)

Team Organization

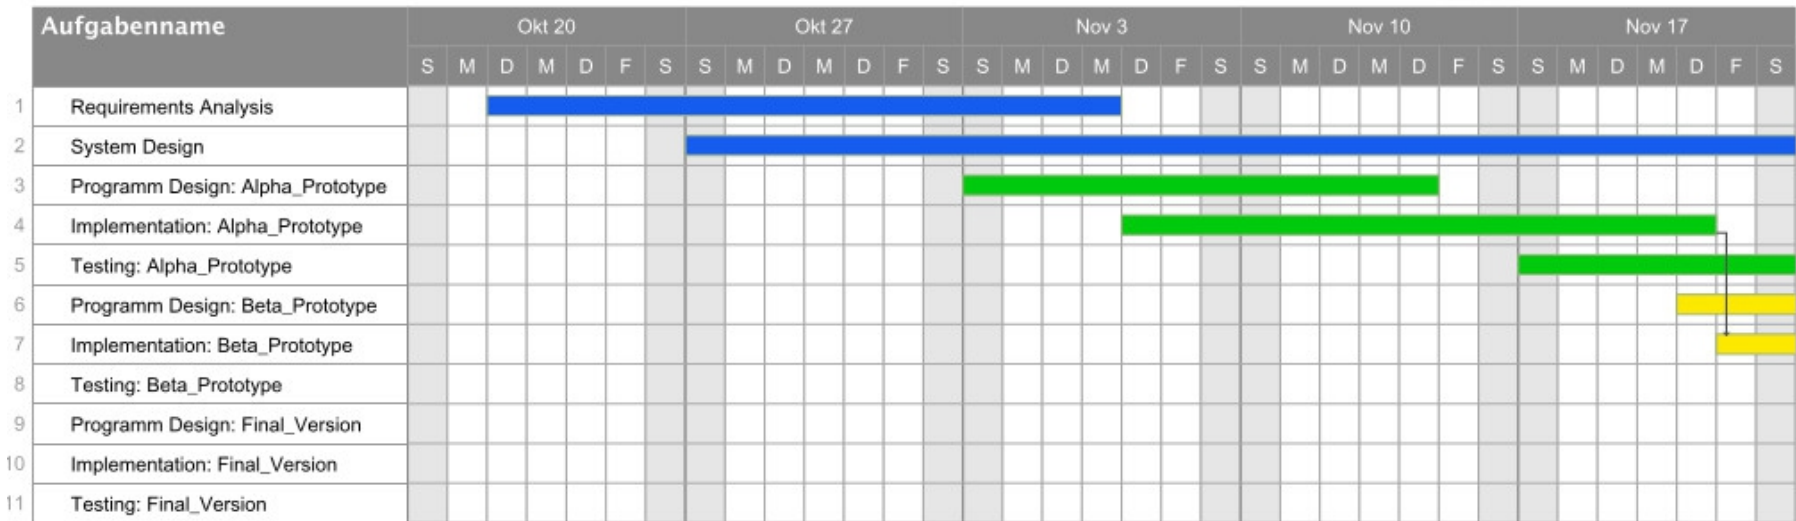

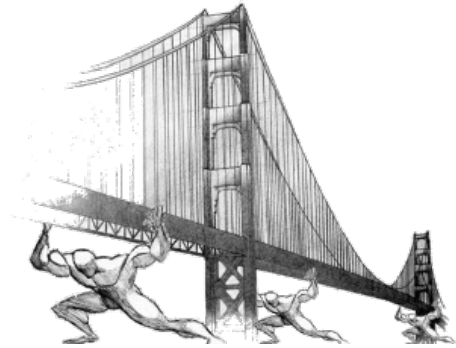

- Updated Roles

Name	Initials	Responsibility (roles)
Andrea Bottoli	AB	Project Manager
<i>Dzana Kujan</i>	<i>DK</i>	<i>Team Leader</i>
Marco Brčić	MB	Documentation Manager
Lorenzo Pagliari	LP	Design Manager
Miraldi Fifo	MF	Testing Manager
Jörn Tillmanns	JT	Database Manager
Nikola Radisavljevic	NR	Integration Manager
Ghazal Shojaee	GS	Design Manager

Project Status

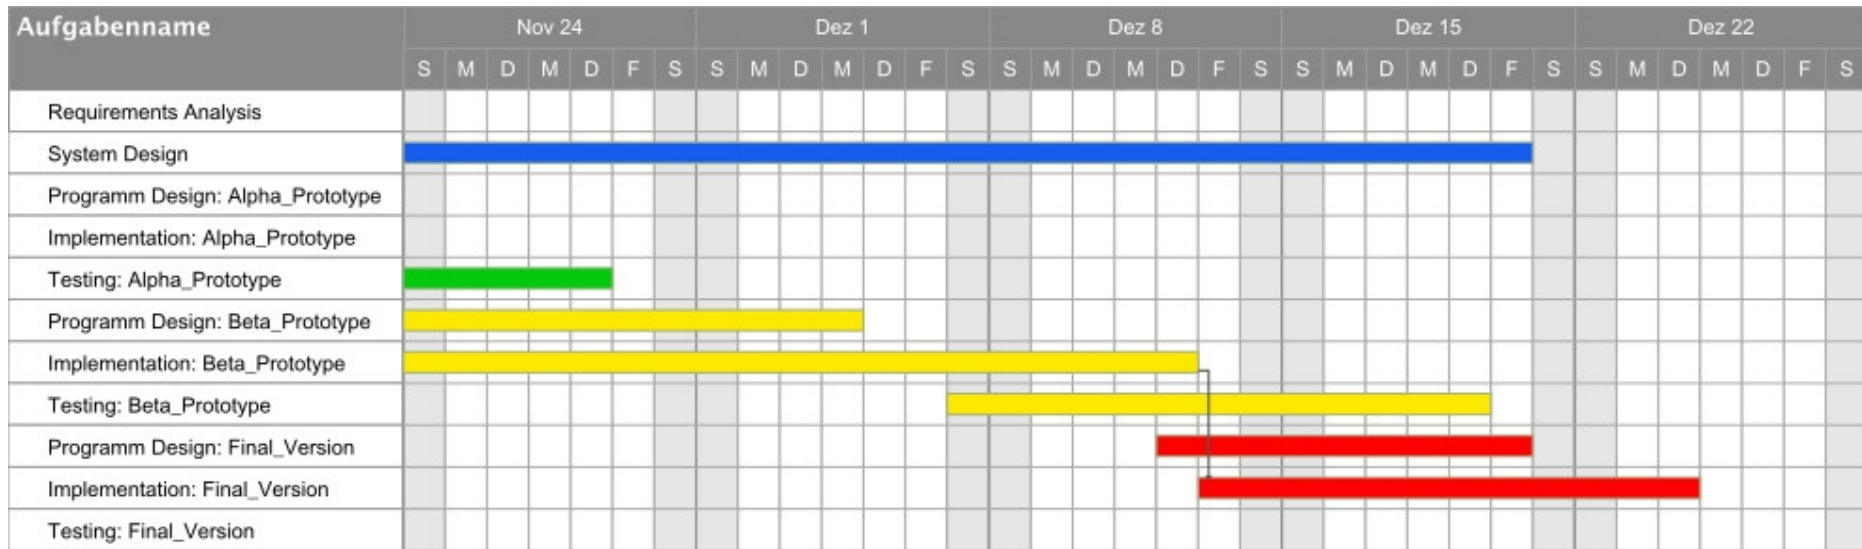

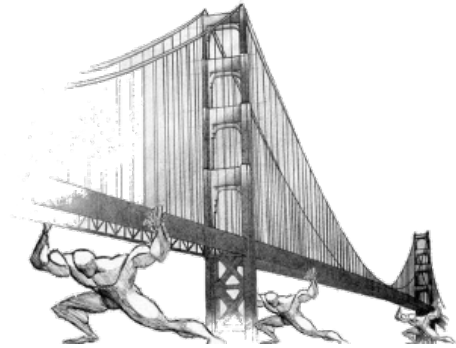

- Actual Project Plan (I)

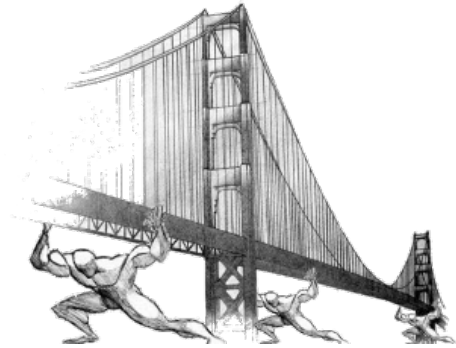

— Where we are

Project Status

- Actual Project Plan (I)
 - What we have to do

Requirements Analysis																					
System Design																					
Programm Design: Alpha_Prototype																					
Implementation: Alpha_Prototype																					
Testing: Alpha_Prototype																					
Programm Design: Beta_Prototype																					
Implementation: Beta_Prototype																					
Testing: Beta_Prototype																					
Programm Design: Final_Version																					
Implementation: Final_Version																					
Testing: Final_Version																					

Project Status

- Actual Project Plan (II)

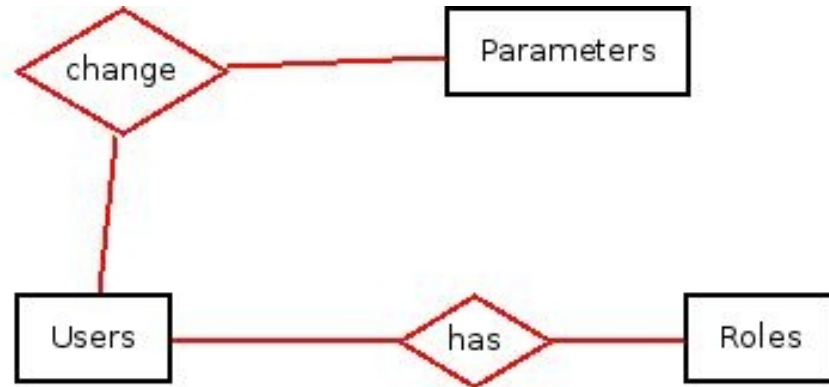

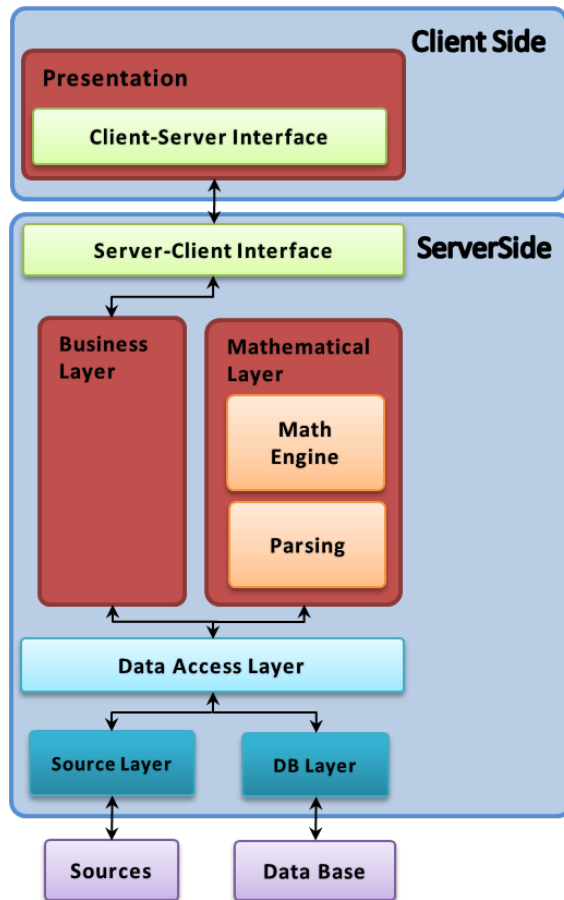

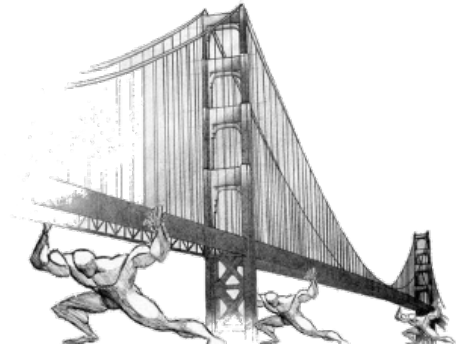

- Modules distribution (persons in charge)

- Data Access Layer is divided in:
 - DB Layer and Source Layer
 - Math layer is divided in:
 - Parser and Math Engine
 - DB Layer, Source Layer and Parser:
 - Jörn Tillmanns and Marko Brčić
 - Math Engine and Business Layer
 - Andrea Bottoli, Lorenzo Pagliari and Ghazal Shojae
 - Presentation Layer
 - Dzana Kujan, Miraldi Fifo, Nikola Radisavljevic

Project Status

- Actual Architecture

Raw Data of Sensors

Calculated Data 10 Minutes

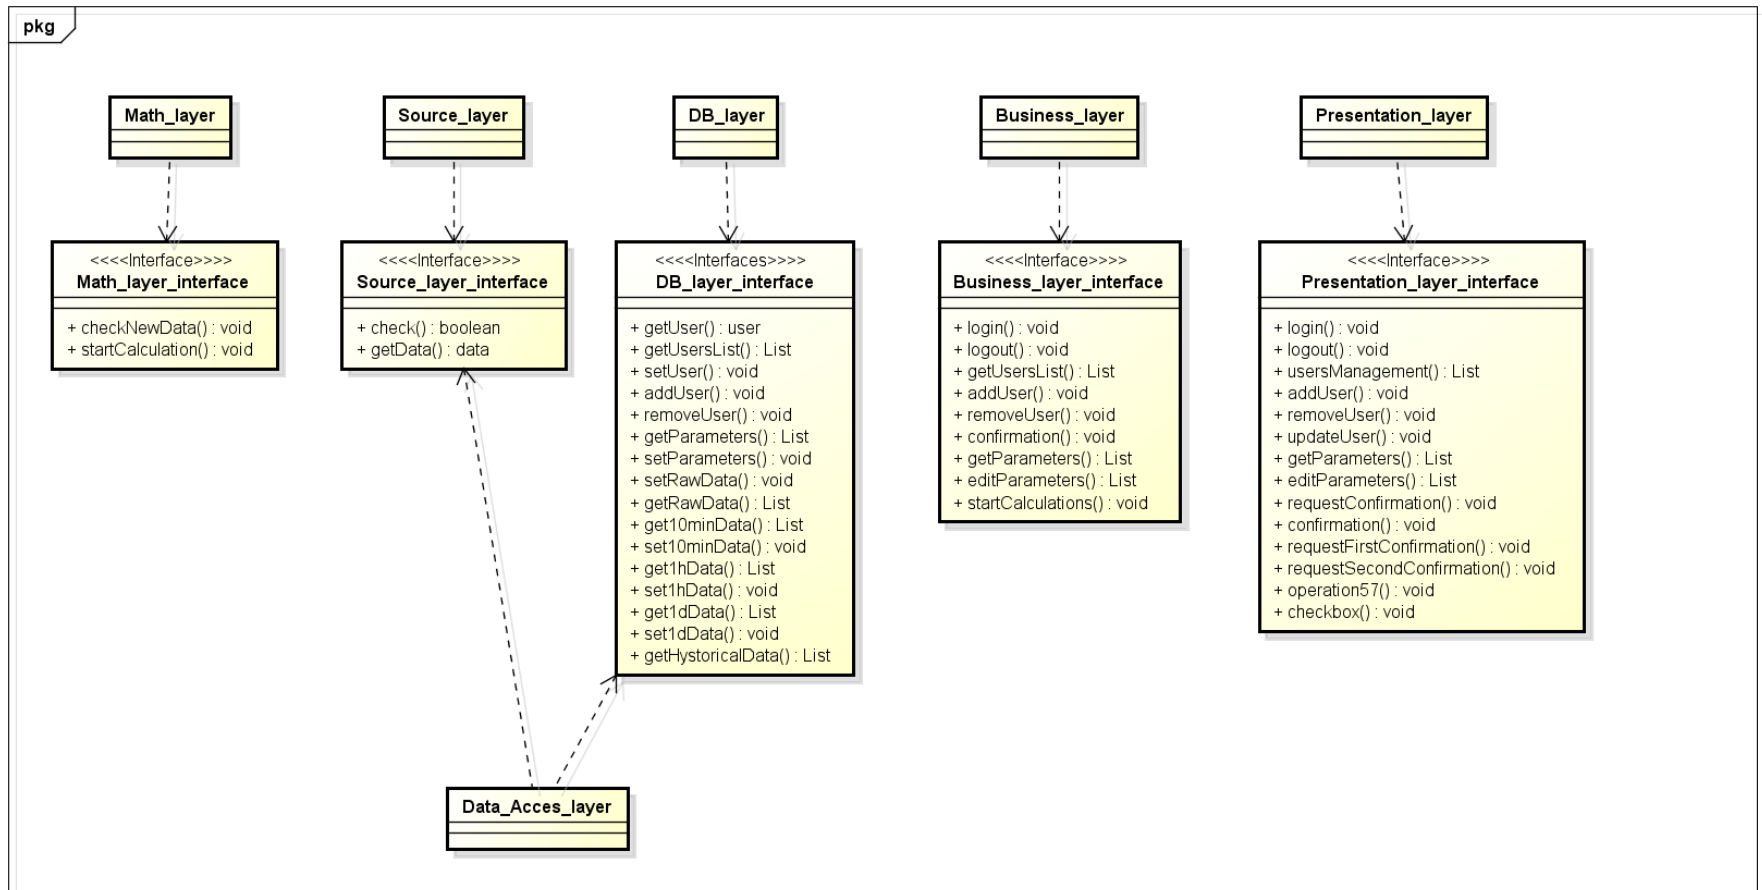

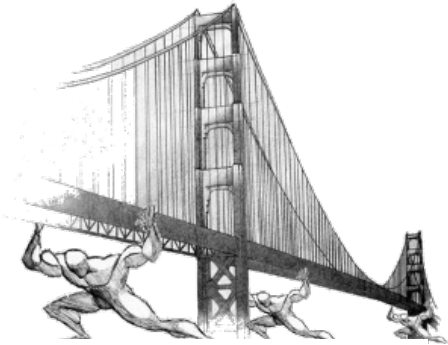

Pictures

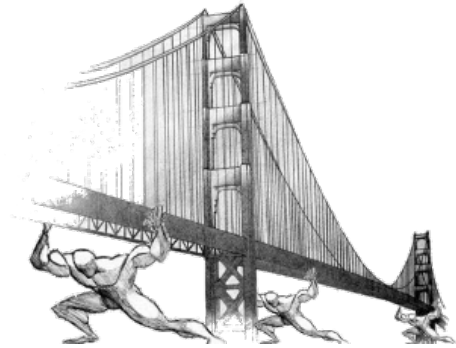

Calculated Data 1 Hour

Calculated Data 1 Day

Project Status

- Some API Diagrams

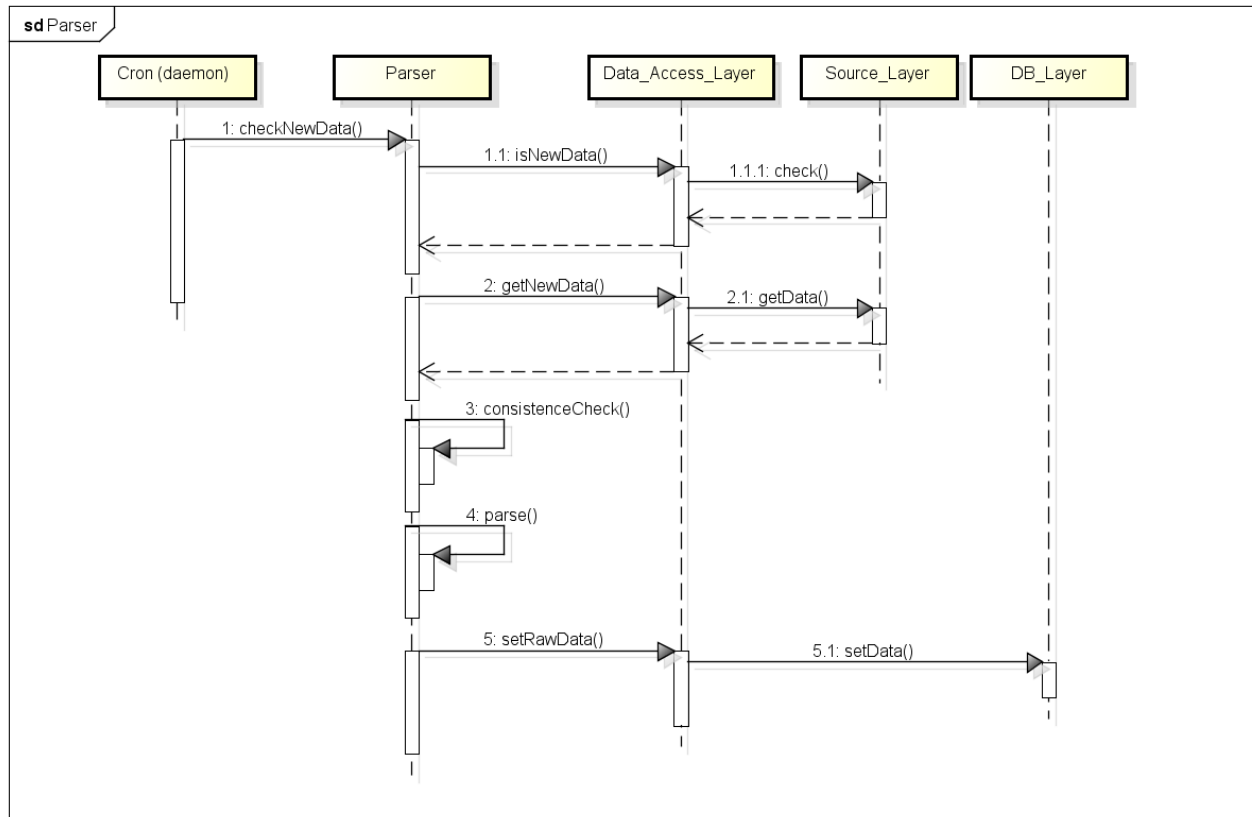

Project Status

- Some Sequence Diagrams (I)

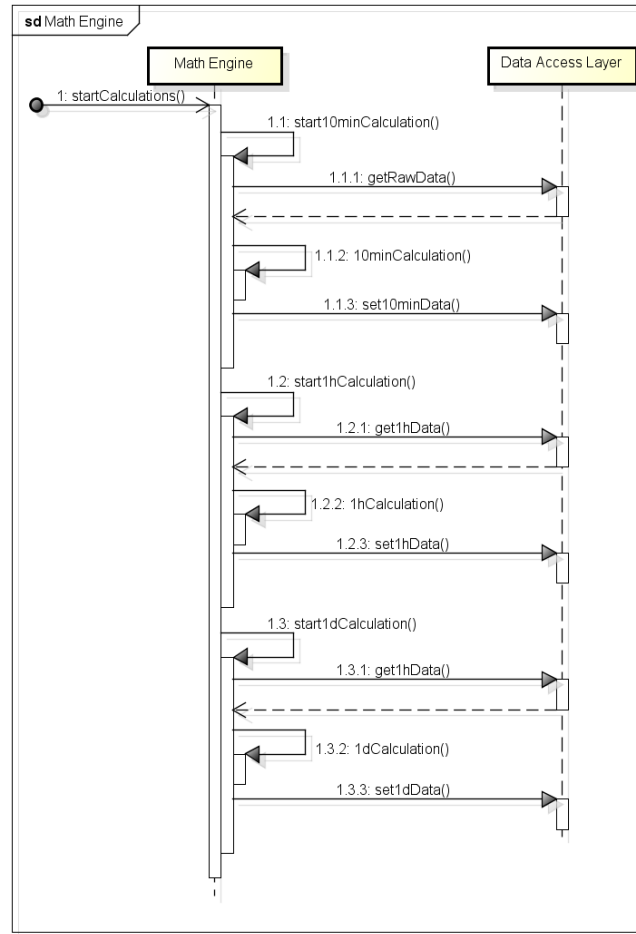

- Parser

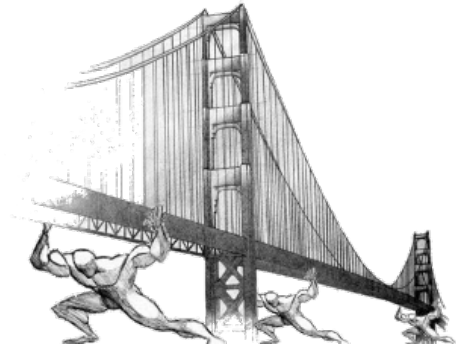

powered by Astah

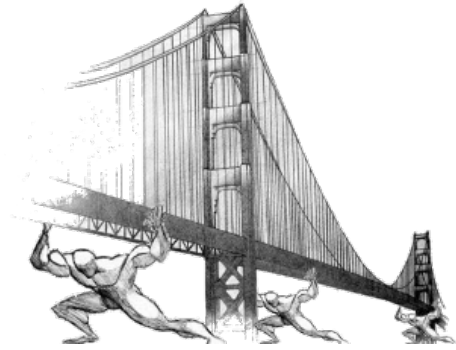

Project Status

- Some Sequence Diagrams (II)
 - Math Engine

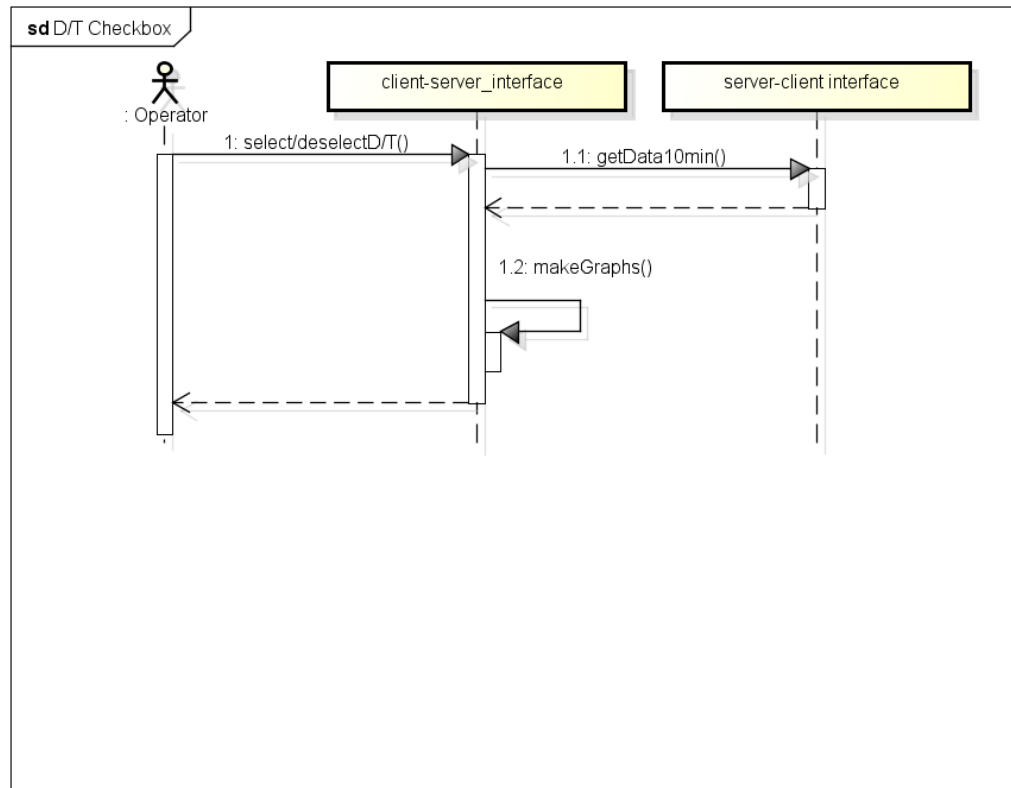

powered by Astah

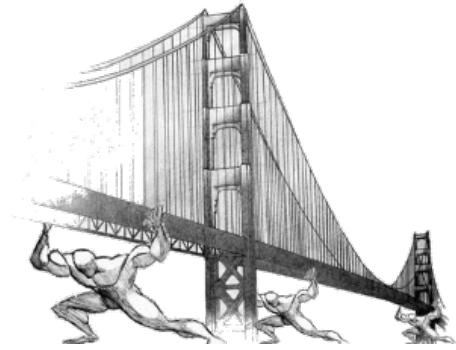

Project Status

- Some Sequence Diagrams (III)
 - Change Parameters: operator

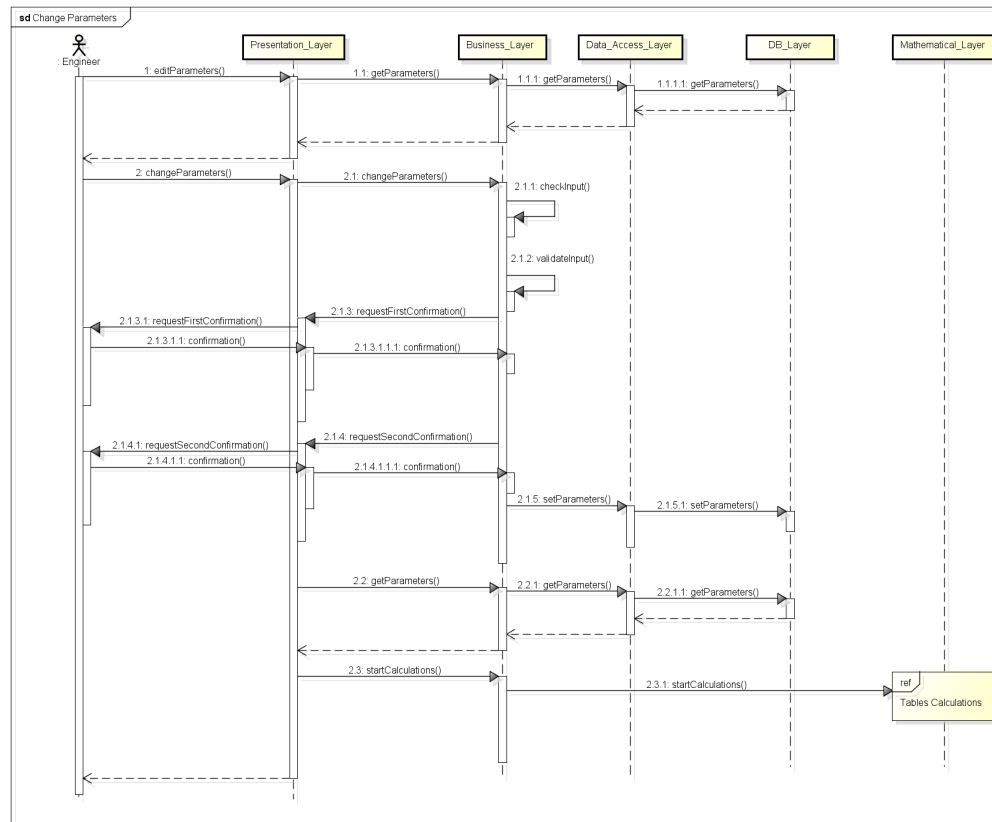

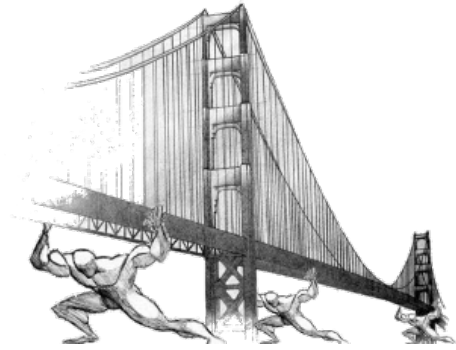

powered by Astah

Project Status

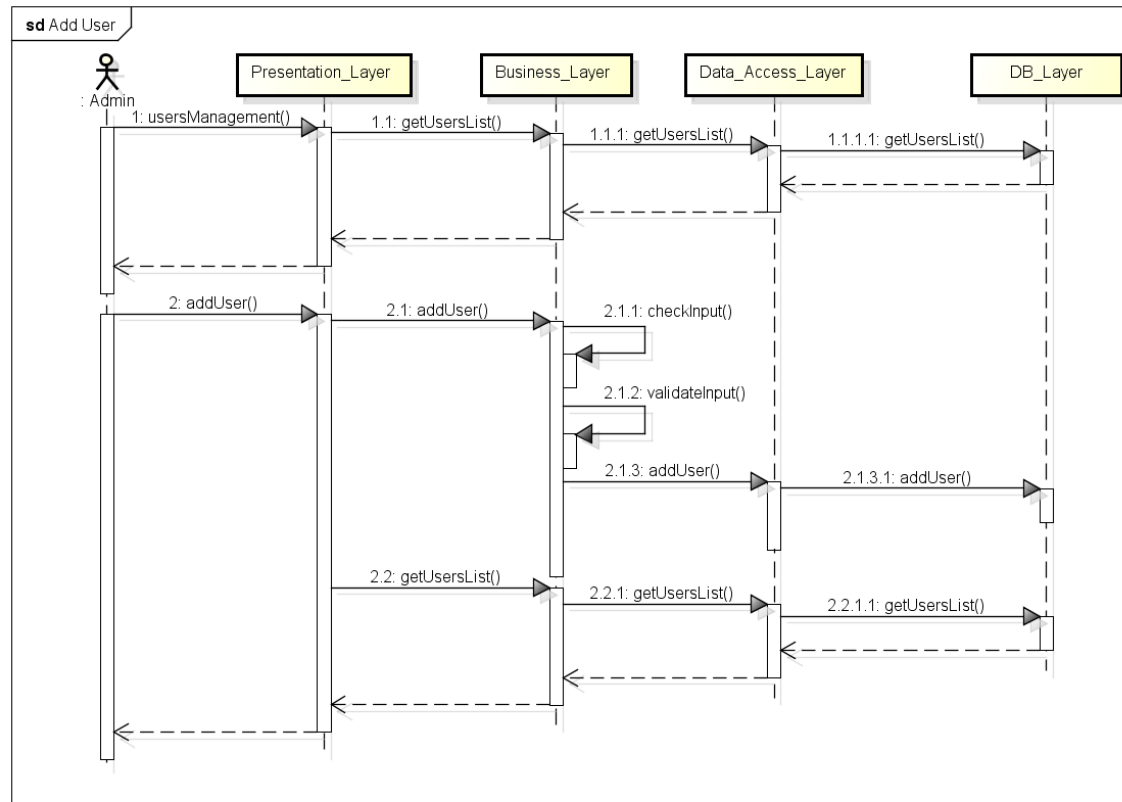

- Some Sequence Diagrams (IV)
 - Change Parameters: engineer

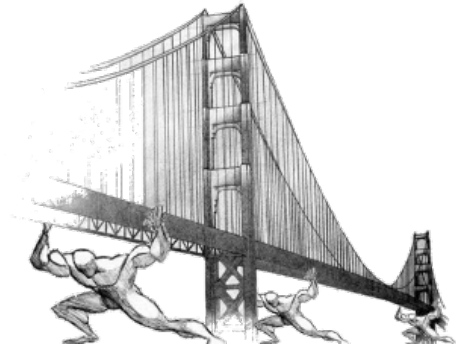

Project Status

- Some Sequence Diagrams (V)
 - User managing: add user

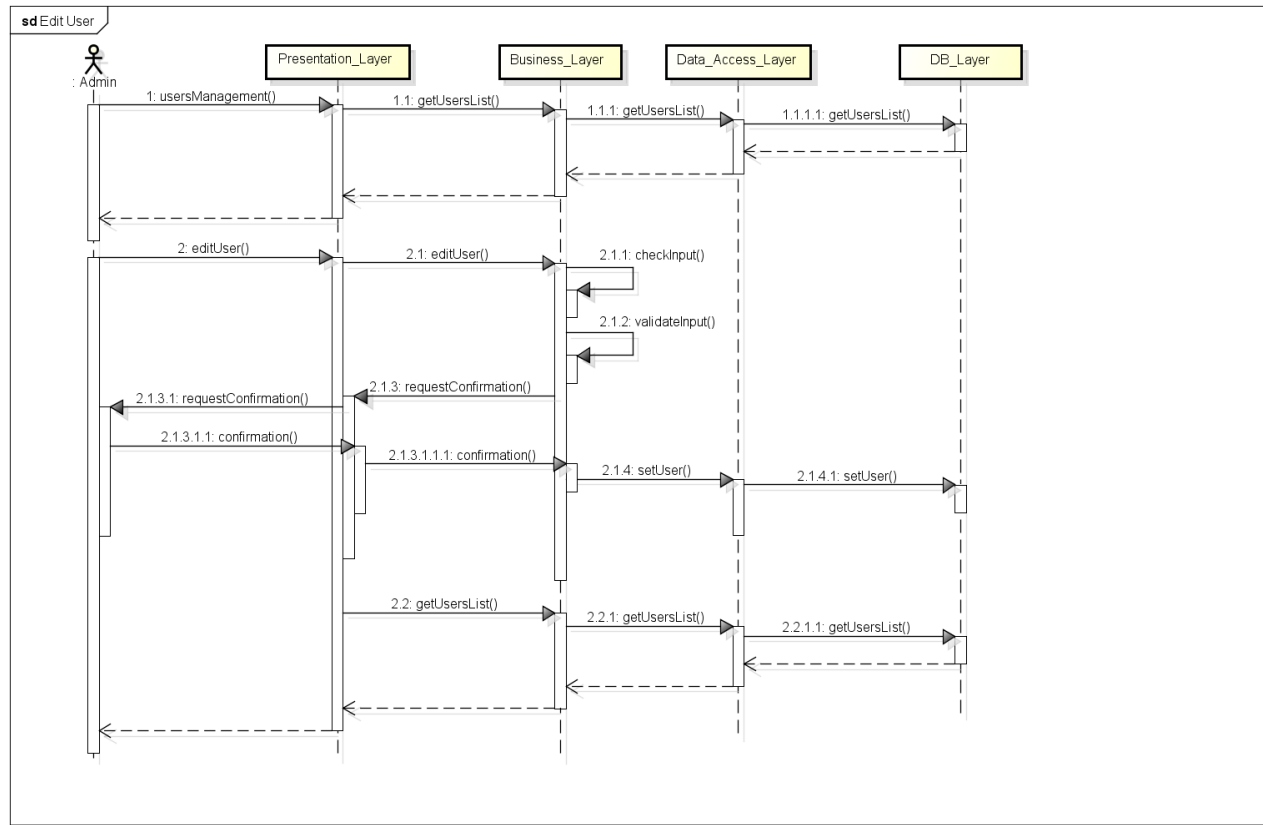

powered by Astah

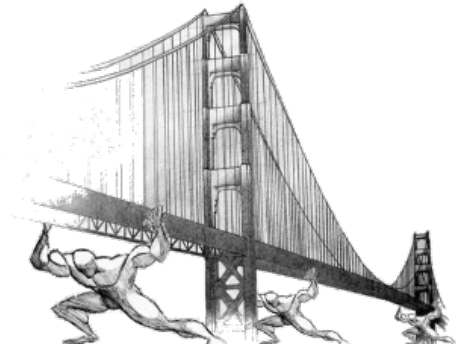

Project Status

- Some Sequence Diagrams (VI)

- User managing: edit user

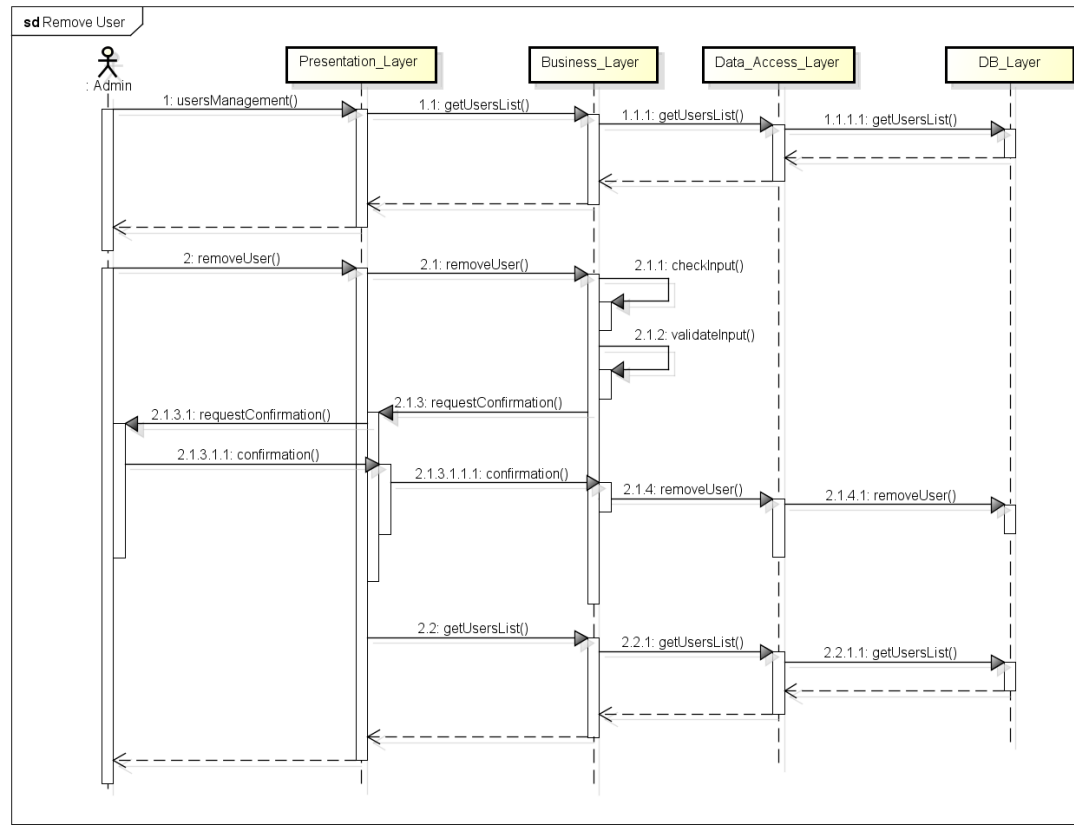

powered by Astah

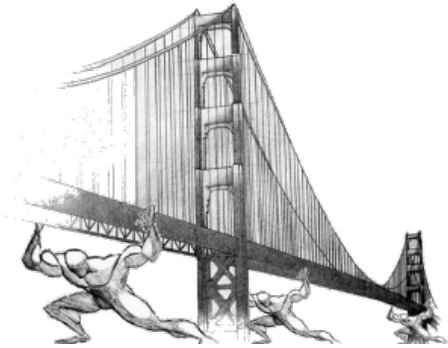

Project Status

- Some Sequence Diagrams (VII)

- User managing: remove user

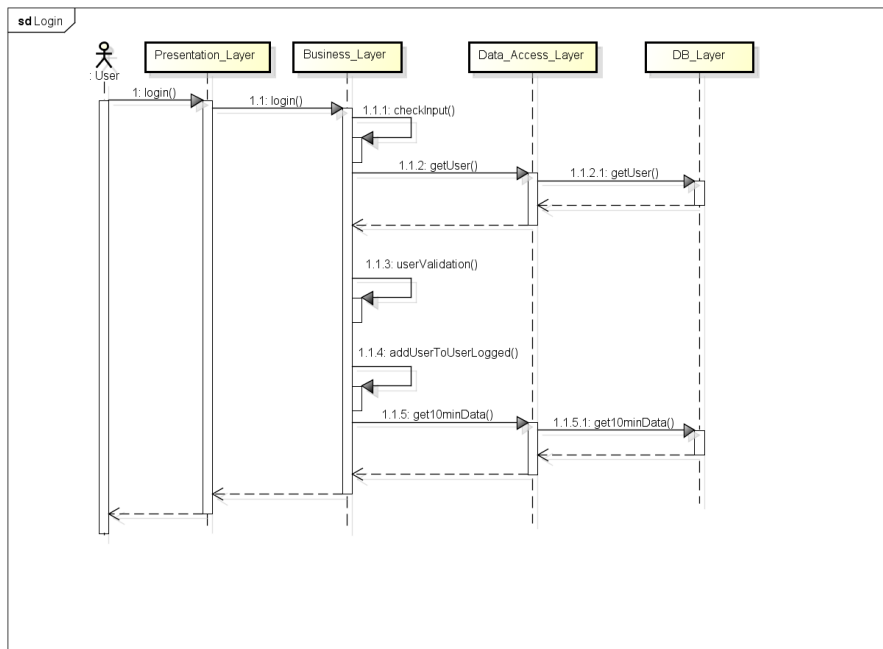

powered by Astah

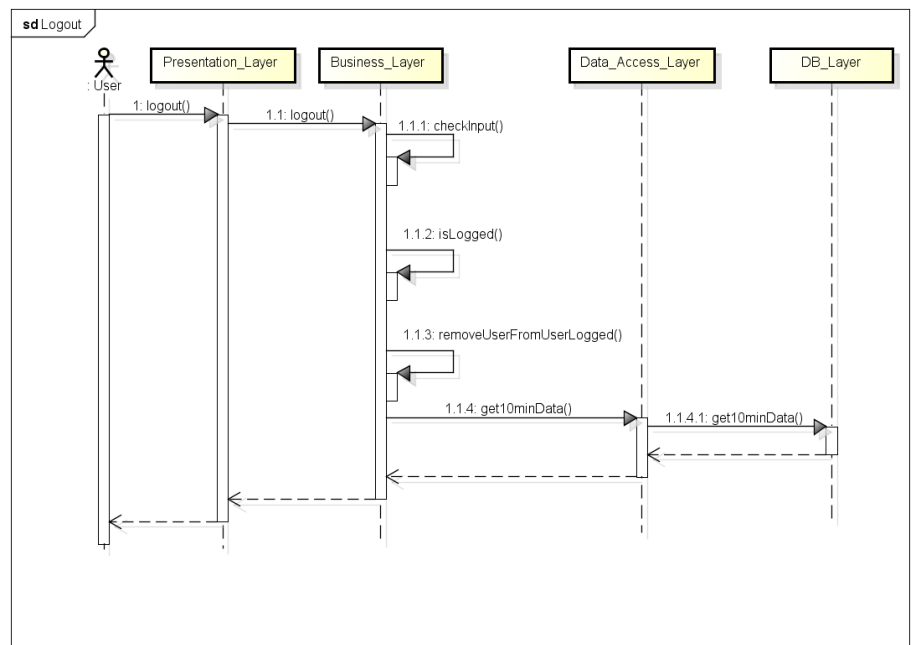

Project Status

- Some Sequence Diagrams (VIII)
 - Login & Logout

Meetings

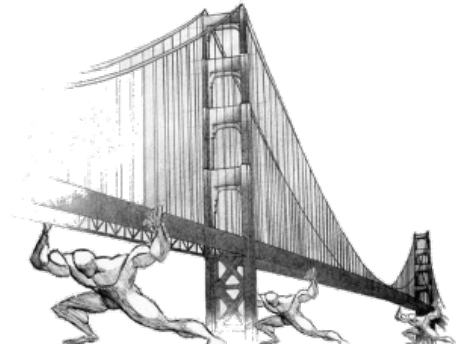

- Both chat & video
- Group Meetings
 - Face to face meetings
 - Formally scheduled every Tuesday 7 P.M.
 - Actually, about 3 or 4 every week ;-)
 - 9 Minutes of Meetings
- Project Leader & Team Leader Meetings
 - About every day (during the week)

Meetings

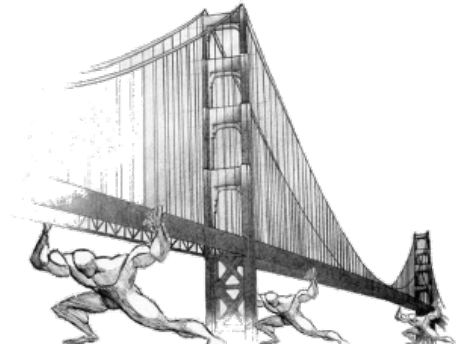

- Customers Meetings
 - One every week
 - Project status
 - Customers desires
 - Requirements
 - First one with both customers
 - Ing. Francesco Ballio
 - Ing. Gianluca Crotti
 - The others with ing. Crotti

Meetings

- Supervisors Meetings
 - One every week
 - Inform about
 - Project status
 - Group status & managing
 - Report about customer meetings
 - Gather advices
 - Report problems
 - until now, not needed --> no problems ;-)

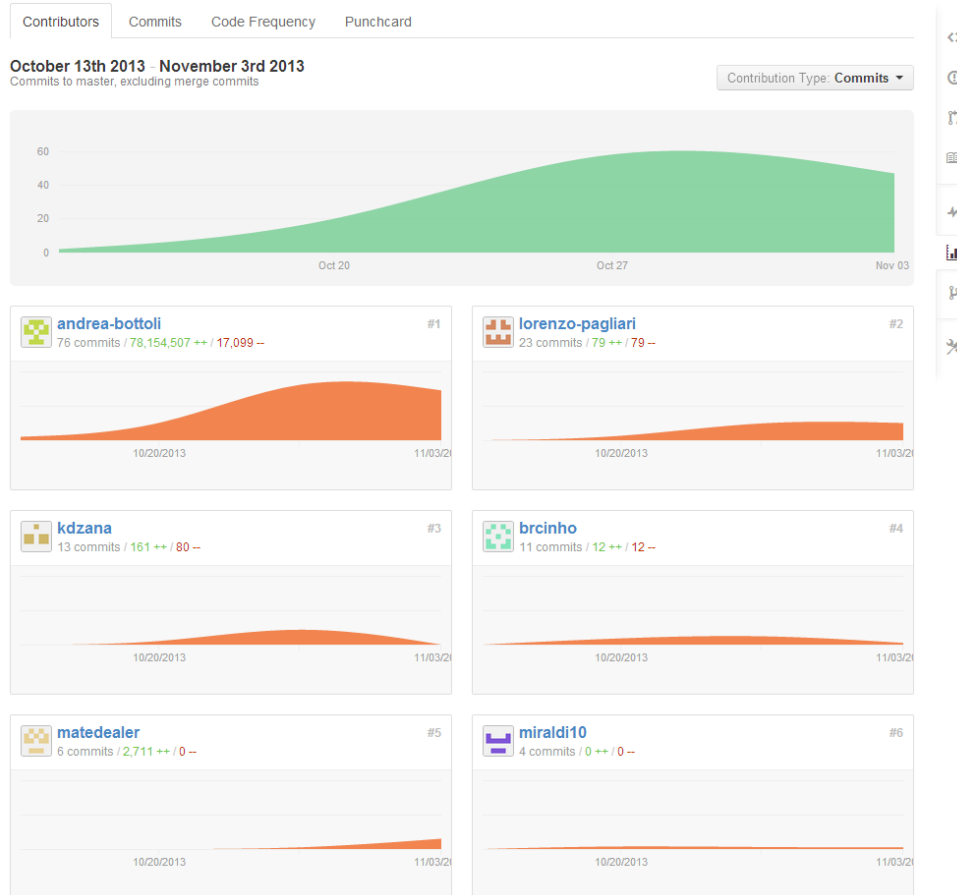

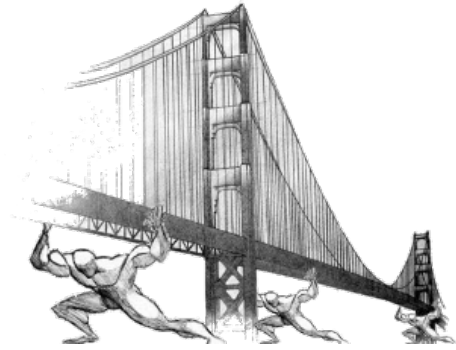

The Repository

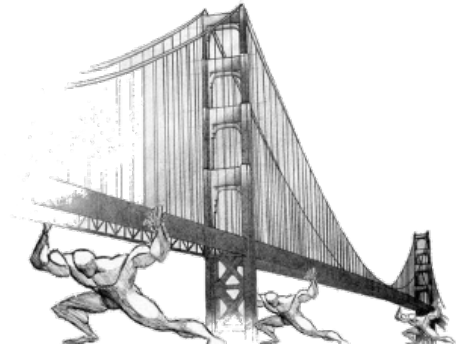

- github.com/andrea-bottoli/DSD
- Every team member is allowed to access
- Supervisors could also access and check the situation
- Also Gianluca Crotti sometimes checks what there is

The Repository

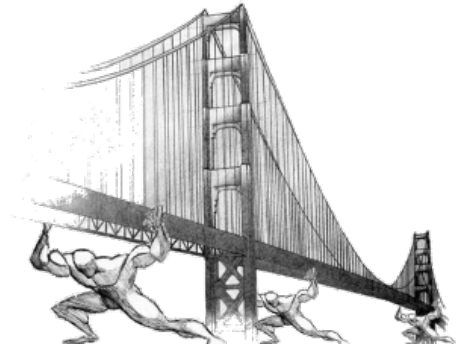

- Every day we commit something ;-)

Question Time

Thank You

- Thank you for your attention :-)
