Week Report

Project	Real-time Bridge Monitoring	Week	50
Name	Marko Brčić	Date	15.12.13

Achievements

- **Finished DAO layer**
- **Model and Controller layers also nearly finished**
- **Tested math engine**

Problems

- **Design should be improved and other web pages added and edited.**
- **Testing should be more intensive by all team members**

Plans for the next week
• **Week off because of another project on the faculty**
