# Week Report

| Project | **Real-Time Bridge Monitoring** | **Week** | 43 |
|---|---|---|---|
| **Name** | Lorenzo Pagliari | **Date** | 27.10.2013 |

## Achievements

- Create a project vision & project plan
- We did the weekly meeting and few more
- Think at some hypothesis of implementations to present at the clients at the meeting
- Discuss about the architecture of the project
- Discuss about the programming language to use for the implementation of all parts of the system
- Think about the overall roles of the people in this project
- Make a complete project plan
- Make the initial draft of group policies (git policy, code policy, etc. etc.)
- We had the first meeting with the customers on Tuesday morning.

## Problems

| Plans for the next week |
|---|
| - Meet again the customers<br>- Think about the requirements<br>- Make the requirements documents<br>- Think how to split the implementation workload<br>- Think at the Design of the project |
