		Week Report		

Project	**Real-time Bridge Monitoring**	**Week**	48
Name	Marko Brčić	**Date**	01.12.13

Achievements
Finished parsing input files and pictures   **Finished other layers needed for the functionality of the parser, mainly parsed input files and raw data**   **Class diagram**   **Changes in the documentation**

Problems
Testing part we don't have yet   **We have also problems with design**

Plans for the next week
• **Working on calculated data** • **Working on enabling the fetching of input files through FTP** • **Working on scheduled tasks** •
