Week Report

Project	Real-Time Bridge Monitoring	Week	44
Name	Lorenzo Pagliari	Date	04.11.2013

Achievements

-Have the data from customers
-Have most of the formulas from the customers
-Share data and formulas with the whole team and explain them
-Project requirements and first design, first version
-Agree on the most interfaces and technologies

-Translate the input document which is in Italian

Problems

-Still some problems to understand to other members of the team, and myself as well, the meaning of inputs, and the purpose of the data tables of the db.

Plans for the next week
-Do the design document of the project -Finish to translate the input document -Think deeply about design of the db -Make all diagram: use case, class diagrams and so on -Meet again the customers to clarify some aspects of the requirements
